

CHALLENGER 605

THIS BRAND-NEW Challenger 605 aircraft features powerful GE CF34-3B engines that give it the exceptional ability to fly nonstop with maximum range of 4,000nm (8.5hrs). The Bombardier Challenger 605 is FAA Part 135 Certified for eleven passengers. This helps maximize comfort even on long journeys.

The Challenger 605 is as innovative as it is reliable and versatile. It is an indispensable business asset giving you a serious advantage over the competition. Building on the already impressive standard of the Challenger 604, the Challenger 605 aircraft offers the widest cabin in the business jet market – one that has been redesigned for more headroom,

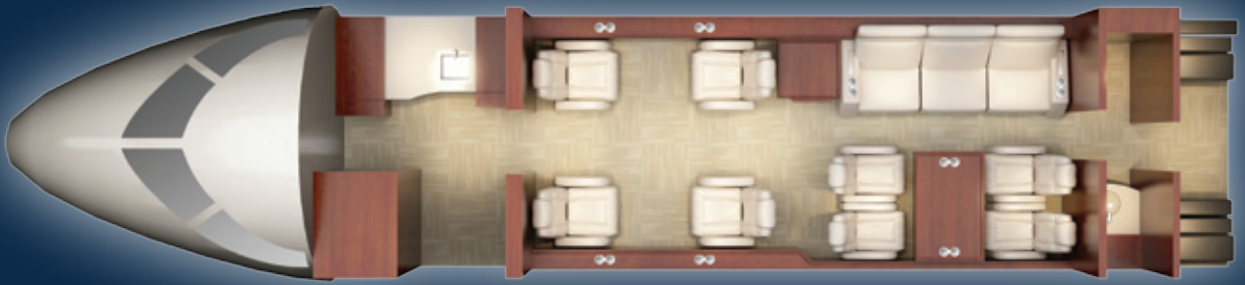

width and overall cabin volume.

For an efficient and a more comfortable work environment, the Challenger 605 features enhanced LED cabin and accent lighting ergonomic leather armchairs and a four-seat conference grouping in the rear.

The Challenger 605 also has the latest in advanced digital technology for onboard communication and in-flight

entertainment, including satellite radio, DIRECTV, high-speed Internet connectivity and audio/video-on-demand. Passengers can access these through multiple touch-screens and fully integrated control panels that are intuitive and within arm's length. A spacious walk-in baggage compartment is easily accessible in-flight and offers plenty of room for all your personal belongings.
