PRESS RELEASE

**AVIATION CONCEPTS RECEIVES SECOND CONSECUTIVE
PLATINUM RATING FROM ARG/US**

-- the First Platinum Certified US Aviation Company In Asia...

Subic Bay, Philippines, May 2011 --- Aviation Concepts, Asia's premier private jet management, charter and maintenance company receives the global aviation safety auditor ARG/US's highest rating again. Aviation Concepts was awarded the prestigious Platinum Rating for the company's consistent and meticulous emphasis on safety and procedures.

Aviation Concepts operates a fleet of private jets from Guam and Subic Bay, Philippines throughout the world as a fully certificated U.S. Air Carrier under US Federal Aviation Regulations (FAR) Part 135 (HFQA636K). The Company complies with the highest safety and security monitoring standards governing business flight today. To comply with FAA certification, Aviation Concepts has developed operating, training, and maintenance manuals that strictly control the safety of all flight operations and guide our vision of excellence.

"We are pleased to have achieved this significant milestone. Aviation Concepts' mandate is to maintain our leadership role in the private aviation market through our range of management and support services. We have again demonstrated that our focus on safety and service as well as close customer consultation is the keys to meeting market needs effectively and efficiently," said Elsie Quenga, VP of Operations of Aviation Concepts.
